

I understand that my favorite station, K-LOVE, may be forced off the air if translators are changed from FM to LPFM. K-LOVE is important daily for me and many other people in my community for the Christ-centered message it delivers daily. Besides providing spiritual direction in my life and those of my family...it meets the needs of people in my community that are hurting and need spiritual help, many times of an urgent nature. K-LOVE is a source of news information as well as Christian events that may appeal to our community. Please do not make changes that would force this wonderful Christian station off the air in my community or any other communities in this country...we all need a positive message these days and that is what K-LOVE delivers. Thank you.
